Cook County has launched Fair Transit in partnership with the region's transit agencies. The 3-year pilot project is **improving service** and **lowering costs** for residents on the south side of Chicago and in south Cook County.

Our next survey is live now through October 25, 2021. Tell us how you are using transit and how the pilot can best serve your needs! Participants that live in the pilot area will be entered to win a **\$25 Ventra gift card**.
